# TermoQvick Pipe thermometer

## Thermometer for external installation on metal pipes.

Suitable for pipes with external diameter 20 to 90 mm.

Very easy to install.

Thermometer contact tube easy to insulate.

Very accurate as the contact point is filled with conducting flux.

Can be fitted anywhere in principle.

Thermometer is made of non conducting material to reduce losses and incorrect readings.

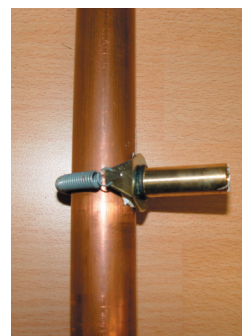

### Technical data

Temperature range: 20 – 120°C

Pipe dimension: 20 – 90 mm
